## THE CONSPIRACY (?) CASE.

Mr. G. W. WARD, one of the unfortunate  
victims of the Government Conspiracy Case  
of last November—with all due respect to  
the handsomely remunerated and immen-  
sely legal advisers of the Governor, and in  
particular, to that ornament of the Bench,  
Sir James Russell, C.M.G., of Opium  
notoriety, was released from durance vile  
this afternoon. It will be for the Hongkong  
Government to justify their action in this  
scandalous case later on. They will  
certainly be called upon to do so before  
long.

## TELEGRAMS.

## NEWFOUNDLAND PROTESTS.

LONDON, March 27th.  
The majority of the members of the New-  
foundland Assembly refused to obey the sum-  
mons of the Governor to attend the House. This  
was meant as a protest against what the  
members considered harsh treatment on the  
part of the Imperial Government. The speakers  
were hissed, as were others who attended the  
assembly.

LOSS OF THE "VOORWAARTS."  
The steamer Voorwaarts, from Batavia bound  
to Amsterdum, went ashore at Conoran in the  
Red Sea on the 16th instant, and all efforts to  
get her off have been unsuccessful.

[The Voorwaarts, 2,802 tons (gross) register,  
was built by John Elder & Co. in 1874 for the  
Steamship Maatschappij, Netherland of Am-  
sterdam, and was classed A1 at Lloyd's.—Ed.]

## STRIKES IN THE UNITED STATES.

April 4th.  
Strikers have attacked the coke-works in  
Pennsylvania; the police fired killing and  
wounding 49 of the rioters. The troops have  
been ordered out, and great excitement prevails.

## LOCAL AND GENERAL.

H.M.S. Archer arrived at Singapore from  
Colombo and Penang on March 30th.

A CELESTIAL was fined \$5, with the  
alternative of fourteen days' imprisonment, for  
the morning for carrying loaded arms without a  
license.

A MARINE COURT of inquiry will be held at the  
Harbour office on Thursday into the circum-  
stances connected with the stranding of the  
steamer, Nanjing.

THE Hongkong-Canton river steamer Parle  
successfully passed the necessary government  
survey on Saturday last for passenger traffic,  
and continued running this evening.

THE Superintendent of the P. & O. S. N. Co.  
has just received a new surprise, and  
Bokhara, with the next English mail, left Singa-  
pore for this port at 4 p.m. yesterday.

FIRST actor: "You seem out of sorts, Jim, ever  
since we've come North. It's the change of  
climate and scenery, I suppose." Second ditto:  
"It's not that, Joe. It's the change of beer!"

THE Captain of the German steamer Europa,  
which vessel arrived at Singapore on March 26th  
from Batavia, died on the voyage from Java  
fever, and fifteen of the men were down with the  
same complaint.

AN Emergency meeting of St. John Lodge, No.  
618, S.C., will be held in Freemasons' Hall,  
Zetland Street, on Thursday, the 6th instant,  
at 8.30 for 9 p.m. precisely. Visiting brethren  
are cordially invited.

THE steamship Oryx, which arrived at Singapore  
from Malacca on the 30th ult., reported a death  
from cholera on board the previous day. After  
inspection, and there being no fresh cases, the  
vessel was allowed to enter.

TEACHER (Canton Missionary school) "I wonder  
how many of you know the meaning of 'mercy'?"  
(All hands up) "Very good. Now you Chang,  
give us an illustration of its meaning." Chang:  
"Melican lady give Chinese boy dishes to wash.  
One plate fall on floor, him blake in thousand  
fifteen pieces. Melican lady cry loud: 'Oh  
mercy!'"

THE Band of the A. & S. Highlanders will play  
the following programme at the Polo Match,  
Causeway Bay, to-morrow, commencing at 4 p.m.

March 26th. "Among the Soldiers." F. B. B. B.

Now that the Milan Dramatic season is drawing  
to a close we would remind our readers that  
there is but little time remaining for them to  
secure seats for the coming performances.  
"Othello" is billed for Wednesday, the "Lady  
of Lyons" for Friday, "Macbeth" for Saturday,  
and to conclude the series of performances  
Bulwer Lytton's beautiful play *Richelieu*, will  
be produced on Monday, the 13th inst.

A NUMBER of the members of the Hongkong  
Police Force met this morning to present  
Inspector Perry with a gold watch, chain and  
locket upon his retirement from the Force  
through ill-health. Mr. Horspool (Acting Captain  
Superintendent) made the presentation in a few  
appropriate and well chosen sentences, and  
Inspector Perry briefly responded thanking them  
for their gift on the eve of his departure.

It will be remembered that when giving particu-  
lars of the recent wreck of the steamship  
*Nanjing* the local press notified that the only  
loss of life connected with the mishap was that  
of one Chinese passenger. Now, however, we  
have pleasure in contradicting that statement, and  
it speaks volumes for the mastery and energetic  
measures adopted by Captain Hogg when the  
vessel ran ashore, that no loss of life occurred.

A MEETING of the Justices of the Peace was held  
at the Magistrate's Court this morning to consider  
the application of James William Osborne for a  
publican's license for the premises known as the  
Whitfield Station, but now re-christened as  
the Bay View Inn, at Causeway Bay. There  
were present: Messrs. A. G. Wise (Chairman),  
Granville Sharp and W. M. B. Arthur, clerk.  
There being no objections from the Police, the  
application was granted.

FAN KI, an ex-constable, was charged at the  
Police Court this morning with being one of the  
five men who committed a robbery at No. 40,  
D'Aguilar Street, a few weeks since, and for  
which two men are already undergoing sentences.  
The case was re-opened by the direction of the  
Attorney-General and one of the convicted men,  
Cheng Han, gave evidence before Mr. Wise  
implicating the defendant. The further hearing  
of the case was remanded.

SAYS the *Strait Times* of March 30th:—The  
steamship *Devonshire*, whose collision with the  
*Stratheden* has been already mentioned in our  
columns, arrived on Friday last and is now  
in dock. Tanjong Pagar. Her injuries are  
extensive, and to the uninitiated it would appear  
that a ship so damaged could not by any  
possibility remain above water. These injuries  
are all forward, and are peculiar, inasmuch as  
the breakage only commences some small  
distance above the water line. From that to the  
keel the shipwater is completely flattened in  
and smashed for some fifteen feet or thereby,  
making it evident that the vessel struck the  
*Stratheden* in a slanting position. This is the  
only indication received so far as to the  
details of the collision, the crews of the vessels  
preferring to say nothing prior to the enquiry.

THERE will be a polo match, Civilian v. A. & S.  
Highlanders, at Causeway Bay, to-morrow,  
commencing at 4.30 p.m., and there will be  
another match, or a practice game, in the  
interval.

THE following is the record of the fastest mile a  
single man has thus far travelled by various  
methods of locomotion.—Swimming, 26.32, walk-  
ing, 6.21; snow shoes, 5.39; rowing, 5.01;  
running, 4.12; tricycle, 2.49 2-5; bicycle, 2.29  
4-5; skating, 2.12 3-5; trotting horse, 2.08; run-  
ning horse, 1.39; railroad train, .40 seconds.

THREE seamen belonging to the Russian squad-  
ron were charged this morning with being  
drunk and disorderly at a late hour last night  
in Cochrane Street. In two cases Mr. Wise  
imposed a fine of \$5 or fourteen days' imprison-  
ment each, and the third man was mulcted  
in a fine of fifty cents only. A couple of blue-  
jackets of H.M.S. *Peace* were fined \$5 and \$3  
respectively for similar offences, but about the  
latter charge we will have something to say  
to-morrow.

LIVERPOOL appears to be the most densely popu-  
lated city in the world; it certainly occupies that  
position in the United Kingdom. Last year its  
population was 503,000, or 113.8 inhabitants to  
the acre. Manchester takes the second place in  
Great Britain, and Glasgow third in the matter  
of density of population, but both stand con-  
siderably below Liverpool. Manchester has  
89 persons to the acre, and Glasgow 85.8. A  
Land Investment Company, on lines similar to  
that of Hongkong, is apparently being in those  
cities.

THE bumps on the back of the camel, though  
they give that animal a deformed appearance,  
are of very great service to it. They are formed  
of granular fat, and therefore constitute reser-  
voirs of nourishment which supply the waste of  
the body during the long fasts to which this  
creature is often subjected. During the fasts  
they become smaller from the abstraction of  
their material, but when a time of plenty  
returns they soon regain their normal appearance  
and bulk. We give this information for the benefit  
of the Hongkong volunteers, so that when they  
organize their camel corps, they may be in a  
position which will enable them to distinguish a  
dromedary from a Jerusalem donkey.

SIGNOR Schiaparelli, the Italian astronomer who  
has made many wonderful discoveries among  
the planets, has just furnished a new surprise,  
and greater even than his recent discovery that  
Mercury performs only one rotation in the  
course of a revolution around the sun. He now  
asserts that Venus, the brightest of all  
the planets that we see, the twin sister of the  
earth, also turns but once on its axis in the  
course of a revolution around the sun. In other  
words, there is no alteration of day and night  
on Venus, as on earth. The planet enjoys  
perpetual day on one side of its globe, while the  
other side is plunged into unending night.  
We are not an adherent of any account, but we  
always knew that Venus had her shady as well  
as her bright side.

ABOUT five o'clock this morning the fire alarm  
was sounded and it was soon ascertained that  
the fire element had set his eye on the premises  
of the Wanchai Bakery, which are situated in  
Queen's Road East, and is the property of  
Messrs. Lane, Crawford & Co. The engine and  
manual force of the Wanchai Police Station what  
soon upon the scene under the direction of  
Inspector Bremner, and a copious supply of  
water was poured on the flames, which fortunately  
were got under within an hour from the time that  
the alarm was sounded. The fire had originated  
in the drying room of the Bakery and at the  
time of the outbreak some 500 baskets of  
biscuits were stored there, all of which were  
entirely burnt. The damages are assessed at  
\$1,000.

THE Wanchai correspondent of our Shanghai  
morning contemporary writes on March 24th:—  
The city was disturbed an hour or two before  
dawn this morning by the fire alarm and the  
noise of all the fire engines rushing towards the  
Victory's yards, which was seen to be in flames.  
Fortunately after awhile the fire was subdued,  
but not before one of the courts of the yards had  
been burnt down. It is understood that the  
fire broke out through the use of a naked light  
in the Victrola wardrobe, and that the fire  
destruction of the north and south apartments  
bounding the court, a large number of boxes,  
reported as fifty or sixty, of wearing apparel were  
consumed. The robes of a high mandarin are  
numerous and elaborate, and it is quite possible  
for him to lose a good deal of money in his  
calendared trunks. The Viceroy is notoriously a  
light sleeper; rumour says he never goes to bed  
at any rate no one was hurt in the fire.

OUR Singapore contemporary the *Strait Times*  
makes the following comments, ancient a  
controversy that has recently arisen in certain  
Paris newspapers, with regard to the over-  
powering British interests in the coal-mines on Hong-  
kong Island, Tongkin, and in which Hongkong is so  
vitaly concerned:—"Much English capital has  
been invested in the Tonquin coal mines at  
Hongkong, to the disgust of prominent political  
men in France, who would prefer that French capital  
should be invested there. M. Bouvier-Chanforon,  
who manages the mining company complained  
of, says, in reply, that the distrust of Tonquin  
which prevails in France has compelled him to  
call in the aid of British capital and industry;  
but, as a set off, he points out that all the  
personal, engineers and over-seers, to the number  
of 100, as he goes on to say, are French, and  
they all travelled by the French mail steamer.  
He might have added that the company have  
lost nothing to this patriotic policy, but he is  
doubtless too much of a Frenchman himself to  
admit this."

One of the things which have been recently  
invented to make this dismal world feel glad is  
the infamously wig, which, presumably is made  
from the hair gathered in the Canton pottery  
yard, or on the beach at Kowloon after one of  
the many bloody executions that periodically  
occur there, a contrivance that has tendency  
to spread itself considerably in fashionable  
circles. It has been noted by deep thinkers  
that the red and reckless infant of two or three  
years generally looks short and scrubby about  
the throat, whereas that heavenly howler ought  
to have long golden curls to tone down its ears  
and give it a serene aspect generally. Conse-  
quently the misguided and incomplete inhabi-  
tant is seized with a strong hand and shaved,  
and while it is averted a portion of the domestic  
beast, like its own great-grandfather, rushing  
around with a rattle and a wooden horse. But  
when it goes out it exhibits a magnificent collec-  
tion of ringlets that excite general admiration,  
except when the offspring takes off its ornament  
and runs along whooping and trilling it in the  
gutter, and then its appallingly mother starts  
wildly down the street in pursuit of her hairless  
descendant, and bangs it with her umbrella. We  
did not suspect this dodge till the other day,  
when we fell over a bald-headed hero who was  
taking a short cut through the Public Gardens  
with his scalp in his hand and a distracted Arab  
tolling behind; but having discovered it we  
intend only to advise the common or garden  
infant with the cropped cranium for the future.

JOHNNY: "Papa, do the good die young?"  
Papa: "Yes, my son." Johnny (after a pause):  
"Well, according to that, what a bad man poor  
old grandpa must be. He's so old."

EARLY this morning an Indian constable found  
the body of a Chinaman hanging to a tree near  
Little Hongkong bridge. The body had evidently  
been suspended for some time, as it was far  
advanced in decomposition.

## NEWS OF THE WORLD.

LONDON, March 2nd.  
London fog was the subject of a discussion  
in the Commons this evening. Viscount Wal-  
pole presented a petition against the proposed  
scientific methods of mitigating the fog, adding  
that they were curtailing working hours.

Mr. Smith, the Government leader, replied that  
the committee of the Lords had already made an  
exhaustive inquiry, and recommended, among  
other things, the use of non-bituminous coal.  
The bill is now pending in the Lords on the  
subject.

ROME, March 2nd.  
In the Deputies to-day Lussati, the Minister of  
the Treasury, presented the new budget  
accepting the estimates of ex-Minister Giolitti  
by which a retrenchment of 9,000,000 lire was  
effected. The deficit is roughly placed at  
29,500,000 lire. He proposed various additional  
retrenchments in the army and navy estimates,  
the reduction of the salaries of Government  
employes, etc.

Buenos Ayres, March 2nd.  
The state of siege which was declared some  
time ago continues here, but it is likely that  
it will be any immediate trouble. It is generally  
believed the intervention of General Mitre, ex-  
President of the republic, will lead to a settle-  
ment of the difficulties.

MADRID, March 2nd.  
The Spanish Cortes opened to-day. The  
Queen Regent, in her speech, announced that  
commercial treaties with foreign nations are not  
to be renewed, and that it has been found neces-  
sary to establish customs relations in several new  
cases with foreign states.

PARIS, March 2nd.  
The Minister of the Interior has notified the  
prefects that on and after March 8th betting  
on the *pari-mutuel* system will be considered a  
penal offence.

BUCHAREST, March 2nd.  
Florescu has accepted the offer of King Charles  
of Roumania to form a new Cabinet in the place  
of the Ministry which recently resigned.

VIENNA, March 2nd.  
Elections for members of the lower house of  
the Reichsrath commenced to-day. Great interest  
is taken in the result, owing to the strenuous  
efforts of the Emperor to secure his own  
power. He has in a large measure changed his  
policy, this being necessitated by the strength of  
the Czech element.

Throughout Bohemia the young Czechs are  
victorious and it seems certain Taaf will get a  
working majority. The returns will not be fully  
known until March 15th.

NEW YORK, March 2nd.  
A *World's* London special says:—Patti has  
accepted the proposal of twenty operatic per-  
formances at Rio Janeiro for £30,000.

John Thomas came from Wales four years  
ago with his wife and two children. In Sal-  
Lake City he was a successful business man, but  
in an iron foundry, finally losing his place, it  
was asserted, because he would not become a Mor-  
mon. He started to return to Wales with his  
family, and on the way became crazed, jumped  
from the train and was killed. To-night the  
mother and little ones reached New York, and  
at a downtown hotel the mother's reason gave  
way, and another her babe in her bosom,  
she was carried raving to a hospital. The chil-  
dren, with several hundred dollars of the parents'  
savings, are here in strangers' hands.

A *Post* Buenos Ayres special says, regarding  
the situation in Chile:—The insurgents are  
intrenched strongly near Iquique. A British  
West Indian steamer, supposed to be carrying  
insurgents, when called on by a Chilean war  
ship near Coronel, hoisted the British flag and  
stopped. The vessel was then boarded and  
searched. A quantity of powder and dynamite  
was found, which the Chileans were about to  
seize, when they were warned by the captain.  
The vessel's officers showed signs of taking with  
a fight. He was then let alone and the  
steamer was allowed to continue on her way.

LIQUEUR, March 2nd.  
Quiet reigns here. The banks have reopened  
and business is being resumed.

BERLIN, March 2nd.  
The German Government has warned ship-  
owners of the empire not to send any war  
material to the Chilean insurgents.

Buenos Ayres, March 2nd.  
Dr. Charles Pellegrini, President of the  
Argentine Republic, has asked the private banks  
to support the Government.

PARIS, March 2nd.  
The announcement that one of the leading  
banks of Bercy had suspended proves to be  
correct. The firm is Gayette & Duland. The  
liabilities are some 600,000 francs.

The disturbance caused by the visit of  
Emperor Frederick to this city is not entirely  
subsidised is shown by the fact that the air is full  
of rumors of changes of a diplomatic nature. It  
is reported that in the event of such changes  
being made Herbet, Ambassador at Berlin,  
will be sent to London; that Radowski, the  
German Ambassador at Constantinople, will  
succeed Count von Munster at Paris; that  
Count von Waldersee, now in command of the  
Ninth Army Corps, will replace Prince von  
Hohenlohe-Schillingens as Governor of Alsace-  
Lorraine.

LONDON, March 2nd.  
The Dockers' Union has seceded from the  
Federated Labor Union, owing, it is claimed, to  
the needless obstinacy and lack of discretion  
shown by the Seamen's and Firemen's strikes.

Another stir has been created in police circles  
by the finding of the decomposed limbs, arms  
and legs of a woman in the Regent canal to-day.  
The application of the brothers of Mrs.  
Wood to break her will, bequeathing a large  
fortune to Mrs. O'Shea, was to-day refused by  
the court. Public allusion to Parnell's having a  
possible interest in this fortune induced the  
brothers to bring this action.

A dispatch from Chile, by way of Buenos  
Ayres, states that three battalions of infantry  
and the entire Fourth Regiment of Chilean  
troops, stationed in the neighborhood of Plague,  
shot their officers and declared in favor of the  
revolutionists.

LISBON, March 2nd.  
According to small advices from Chile a lead-  
ing diplomat said he expected that the Chilean  
Government would gain in the March elections  
by co-opting the electors; that the Congress they  
obtained would probably install Vicuña as  
President of the Council, and he would likely  
come to terms with the opposition, renouncing  
his transitory political affiliation with Balmaceda.

It is asserted that Lord Salisbury, the British  
Prime Minister, and Count von Hatfield, the  
German Ambassador to Great Britain, are treat-  
ing with a view to the adjustment of questions,  
including that of Egypt, wherein France's inter-  
ests conflict with those of England.

NEW YORK, March 2nd.  
A *Wall-street* London special says:—The

reported that another large firm here is embar-  
assed and the Bank of England is assisting it  
with heavy loans at a 31 per cent. Russia is  
taking large amounts, and the indications are  
that the bank rate will be advanced.

QUEBEC, March 2nd.  
The *Enquirer* accuses Sir John Macdonald of  
being the foe of the Catholic Church, and calls  
upon French Canadians to oppose him as such.  
The article has created quite a sensation.

SUAKIM, March 2nd.  
Osman Digna is a fugitive, fleeing with a few  
women and followers to Berber.

BELFAST, March 2nd.  
Henry Harrison, member of Parliament,  
visited the offices of the Belfast branch of the  
National League yesterday and told all the  
money and documents he could lay hands on.  
It is claimed that the central branch of the  
league authorized the seizure, owing to the  
disorganized state and disloyal attitude of the  
Belfast branch towards Parnell. Harrison and  
his friends then declared the branch dissolved.  
A free fight followed between Harrison's friends  
and their opponents of the Belfast league,  
and fists, sticks and chairs were freely used.  
Finally the police cleared the building.

DUBLIN, March 2nd.  
The laborers employed upon the railroad work  
at Clifton, Galway, have struck for an increase  
of wages.

At noon to-day, while the Dublin mail train  
was nearing Caenacchi, a passenger named  
Gavan suddenly drew a knife and commenced  
slashing and hacking at those about him, at the  
same time yelling at the top of his voice. The  
car was loaded with passengers and all were  
thrown into a panic by the ferocious onslaught  
of the man.

Gavan badly wounded five of his fellow  
passengers, and only desisted from his bloody  
work when both blades of his knife were broken  
and the weapon rendered harmless. He then  
jumped from the train while it was going full  
speed.

The wounded passengers were taken to railroad  
stations and physicians attended to their injuries.  
The police captured Gavan, who was not much  
hurt by his jump. He is insane.

LONDON, March 4th.  
At a banquet of the Chamber of Commerce  
to-night Lord Salisbury said hostile tariffs and  
an excess of protection feeling were the only  
clouds on the bright outlook for commerce.

In America, however, ultra protection had been  
changed by the people in the last election.  
Reverting to the labor question, he said the  
eight-hour proposal attacked a vital principle  
of individual liberty. Parliament had no right  
to interfere with adults. He would be no party  
to legislation to the individual effort or cramp  
freedom of trade. If the eight-hour day were  
conceded to the miners it would be impossible  
to withhold it from other trades, "and," he  
added, "once we pass the Redoubt separating  
us from the domain of socialism our commercial  
and industrial supremacy will be lost and  
difficult to recapture."

Leonard W. Jerome's death, which took place  
at Brighton after a lingering illness, causes  
much sorrow in fashionable sporting and social  
circles. The end came simply from exhaustion.  
Some months since Jerome came to England, in  
search of health, and was attended in London  
by Dr. Cheppell, who just a month ago recom-  
mended him to go to Brighton, and it was  
believed by the patient and his family that the  
beautiful mild weather which endured during  
the whole of February, had much to do with  
prolonging his life.

All that medical science and the loving solici-  
tude of his daughters—Lady Randolph Churchill,  
Mrs. Leslie and Mrs. Moreton Frewer—could do  
to prolong his life was done. Dr. Cheppell was  
in daily attendance on Jerome, but it was only  
too obvious that the patient's lungs were in a  
state of collapse. His end was peaceful.

New York, March 4th.  
Yusuf Dudley, the insane woman who came  
from England several years ago and shot  
O'Donovan Rossa, sailed for home on February  
21st in charge of an attendant. At intervals she  
is perfectly sane, and will be sent to the Broad-  
moore Asylum for Insane Criminals at Chis-  
worth, Berkshire.

Andrew Carnegie returned from England  
to-day with some interesting news regarding a  
progressive step to be taken by the Cunard  
Steamship Company. They have asked for  
bids for two new vessels for their fleet. The  
vessels, Mr. Carnegie said, are to have a tonnage  
of 12,000 each and to be 600 feet long and sixty-  
five feet wide. The builders guarantee that the  
steamers will make a voyage from New York to  
Queensstown in five days.

The Great Barrow Steamship Company's  
engineers, who designed the Cunard liners,  
*Umbria* and *Stratheden*, have been asked to  
put in bids.

This would be a good time to build vessels,  
said Mr. Carnegie, "as iron and steel are cheap  
on account of the depression in trade. Still I  
think the vessels would cost over \$2,000,000  
each. Do I think that vessels could cross in five  
days? Most decidedly I do. I think that feat  
will be accomplished within two years. Such  
big ships would pay, I feel sure."

A *World's* London special says:—Excitement  
is caused by the publication in a weekly journal  
of a story concerning a young and talented  
American singer with the unusual death of Prince  
Baudouin of Belgium. The story is that the latter  
to the Belgian throne was calling upon the singer,  
one evening after the opera in Brussels, when  
the Prince de Ligne unexpectedly entered the  
room. Some words ensued between the two  
gentlemen, and the Prince, who considered  
the presence of Baudouin unwelcome, drew a  
revolver and shot his rival in the lungs, and  
from the effects of this wound he subsequently  
died. As the incident was originally published  
no names were given, but the story having since  
been denied, the journal republishes it with  
further particulars and gives the names.

PARIS, March 4th.  
The Marseilles Distillery Company has been  
obliged to suspend operations, owing to inability  
to stand the duty of 5 francs on malt.  
The closing of these distilleries will ruin the pri-  
vate breeders in that vicinity, who use the malt  
refuse in feeding hogs.

ROME, March 4th.  
The *Trieste* to-day gives the details of the  
charges against Lieutenant Biraghi, Chief of  
Police of Massowah, of plundering the natives.  
He is said to have killed four natives in order to  
seize their goods. The victims were chiefly rich  
merchants.

In the House of Deputies to-day Premier  
Rudine said there was no change in the foreign  
policy of Italy. France has been loyal to her  
pledges as to Tripoli. Both Italy and France  
equally and firmly desire to improve their  
already friendly relations.

VIENNA, March 4th.  
The elections, so far as heard from, are a  
triumph for the young Czechs and German  
Liberals, insuring a majority to Tasslo. The old  
Czech party is almost annihilated.

ST. PETERSBURG, March 4th.  
The Tolst

probably win over to Sir Charles' side a number of those who previously condemned him, but that it will fail to completely vindicate him.

It is probable that Sir Charles will abandon the idea of entering Parliament, Gladstone having objected to his proposed candidature. Mr. Stand has published a protest against Dilke's return.

PARIS, March 5th.

M. Melin in the Chamber of Deputies to-day presented the report of the Tariff Committee. The report affirms the necessity of protecting the agricultural industries and manufactures of France, and argues that such action will benefit the consumers as well as the producers. An increase in the tariff, says the report, would augment the public revenue and develop home trade. It instances the results brought about by protection in the United States.

The Minister of the Interior has given instructions that even ready-money betters on the race courses will henceforth be arrested.

It is stated that the French Jockey Club will transfer its races to Belgium to enable it to conduct betting operations.

NEW YORK, March 5th.

The tea crop this year is 27,000,000 pounds short and this shortage will cause an increase in the price to the consumer of 10 cents a pound. Harold Wadsworth, a tea grower and importer, whose main office is in New York, said to-day that late advice to him were to this effect and that the shortage was caused by the blight, a disease which attacks only the tea plant and which breaks out at irregular periods in the tea plantations of China, India and Ceylon, which produce nearly all the tea that is used in the world.

Each year in advance the growers estimate what the year's crop will be. The tea is now being harvested and reports from all points of the tea-growing districts of China show that the actual amount of tea harvested will be 24,000,000 pounds less than was estimated. India and Ceylon have not fared so badly. The crop in those countries combined is only 3,000,000 pounds below the estimate. Over 250,000,000 pounds of tea are consumed annually. Of this amount China raised last year 112,000,000 pounds and India and Ceylon 135,000,000 pounds.

The shortage in the crop will force up the whole price of Chinese tea from an average of 18 cents a pound, according to Mr. Wadsworth, to 24 cents a pound, and of Indian and Ceylon tea from an average of 23 cents to an average of 29 cents a pound. The wholesale dealers will add about 4 cents to this increase, so that tea-drinkers will have to pay 10 cents more a pound than they did last year.

A firm engaged in the South American trade received advices from Chile to-day to the effect that business was being seriously curtailed. The report towards have been directed to a large extent by citizens, who have taken to the hills, fearing bombardment.

It is reported that twenty-six men were killed and injured on the man-of-war *Emerald* by a shell from the shore batteries during the bombardment. The running of trains on the various railroads is almost entirely suspended.

A fire broke out on the steamer *City of Richmond* this afternoon. The vessel was just about to sail. She sank to-night. The body of a colored waiter was found before she went down. Whether others are in the hull cannot be told until it is raised.

Articles were signed to-day for a fight on March 26th before the Cribb Club of Troy, N.Y., between Cal McCarthy and George Dixon (colored), featherweights. The fight will be for a purse of \$4,000.

MADRID, March 5th.

A violent hurricane has swept over this city and neighborhood, doing a great amount of damage.

BERLIN, March 5th.

The National Liberals of Germany have decided to run Bismarck for the Reichstag. During the debate on the naval estimates in the Reichstag to-day Herr Jebens, a shipowner, complained of the failure of Germany to send a man-of-war to Chile. He argued that a British man-of-war did not satisfactorily protect German interests. Admiral Holman replied that with the multiplicity of naval stations it was impossible at present to send a vessel to Chile. He urged the Reichstag to sanction the proposed increase of the estimates for the naval service.

It was remarked at a court concert yesterday that the Emperor was markedly cordial to Mme. Herbeite, wife of the French Ambassador. The general anger over the recent outbreak of French Chauvinism is subsiding.

German officers entered all trains at the Alsace-Lorraine frontier, and turned back a large number of passengers whose passports did not conform to the new rules.

The Berlin newspapers heartily approve the loyalty expressed in the address of the Alsace-Lorraine Parliament yesterday to the Emperor as the first expression of such a nature since the Franco-Prussian war. The hope is expressed that the Emperor will accede to the Parliament's appeal for a repeal or mitigation of the stringent passport regulations.

VIENNA, March 5th.

The Austrian elections were concluded to-day. Returns so far received show increased gains for the German Liberals and young Czechs.

Among the defeats sustained by the old Czechs was that of their renowned and venerable leader, Dr. Rieger, who will now likely retire from politics. The Social Democrats, who entered their first electoral campaign, did not secure a single seat.

DUBLIN, March 5th.

Gavan, who made a ferocious assault with a knife upon the passengers in a way carriage on Tuesday, has been declared to be of unsound mind. The police are impressed with the man's likeness to the description of the appearance of "Jack the Ripper," and are making further inquiries.

BRUSSELS, March 5th.

The rejection of the slavery resolution caused a tremendous sensation in Brussels. The rejection unexpectedly opposed the work of the international slavery conference after a Hollan signature had been virtually coerced. King Leopold is greatly incensed.

RIGHT REV. WILLIAM REEVES, Bishop of the united dioceses of Down and Connor and Dromore, who issued a letter amounting practically to the excommunication of those Catholics, who support Parnell, and which letter caused considerable excitement in this city and elsewhere, says in that epistle: "Those men who are supporting Parnell have become propagators of a public scandal, and by their own acts have placed themselves in company with those to whom it is unlawful for priests to administer the sacraments."

It has transpired that Helena Markovic and Helena Kneanin, who attempted to kill King Milan in 1882, have been strangled to death in prison. King Milan has requested Mr. Garscholine to institute an inquiry into the killing.

MONACO, March 5th.

A man and woman have been arrested here and charged with the murder of a physician named Undermann of Manchester, whose body was found at the time in a ravine near San Remo. At first it was thought to be suicide, but investigation brought out the fact that it was murder. It now appears that the police allowed the suicide or accident theory to go ahead in order to better enable them to follow out the real theory—that of murder. It was thought likely the murderer or murderers, upon hearing that

the authorities of San Remo had arrived at the conclusion that the English physician's death was caused by accident or suicide would relax their vigilance and thus fall more readily into the hands of justice.

From the moment the doctor's body was found the authorities of San Remo never ceased their investigation, and gradually wove a net of evidence around the suspected ones, which yesterday resulted in the arrest here of a man and woman, who are charged with the crime. The woman, it appears, lured the doctor to the lodgings she occupied at San Remo. It is concluded that the doctor when in the woman's apartment was drugged, murdered and buried by the woman, assisted by a man supposed to be her lover, and who was taken into custody with her. The arrests have caused much commotion here. It is rumored that the man and woman in custody may have other and similar crimes charged against them, and that the woman may have been used to lure other men to their doom.

LONDON, March 6th.

A dispatch to the Exchange Telegraph Company from Chile says information received from official sources shows the Chilean insurgents are short of ammunition, and they therefore refrain from making an attack upon the capital, where the troops are well armed and are prepared to make a defence. President Balmaceda's partisans are of the opinion that a vigorous effort upon the part of the Government troops will quell the rebellion.

The British steamer *Westbury* arrived at Plymouth in a damaged condition, having been in collision with the German steamer *Wanderer*, from Hamburg, March 1st for New York. The *Wanderer* proceeded.

A number of prominent cotton-seed oil merchants in this city have formed a joint stock company with a capital of \$4,000,000.

Leonard Jerome of New York was buried to-day in Kensal Green Cemetery. Lord and Lady Churchill, United States Minister Lincoln, United States Consul-General New, the German Ambassador and thirty or forty more friends were present.

The United States War Department has purchased the battery station, the Star of Neval, which was second at the Arlington Horse Show. The price was \$7,000. The Italian and United States Governments are to compete for the prize for running breeders in horses, and are paying large prices for good selections.

PARIS, March 6th.

Notwithstanding the recent decision of the Chamber of Deputies to suppress every kind of betting on horse-racing the Autuill races will be held in accordance with the programme already prepared.

At a meeting of the Municipal Council to-day Prefect Lx said *parlemens* will be positively suppressed and that the offices in which betting was carried on are now in course of demolition. The police at the courses will be re-enforced and troops will be sent out if necessary.

NEW YORK, March 6th.

The *Tribune's* Washington correspondent says:—The American navy has reached what is called a middle point in its development. To complete it and to put it upon the footing of the first-class powers would require the expenditure of about \$65,000,000 more.

Thus far the Government has either expended or authorized to be expended \$70,000,000. This represents in round figures \$135,000,000 for the complete navy. The amount is small in comparison with recently.

"I asked Secretary Tracy last night to give me his idea how many more ships were needed than we now have to complete what he would call a sufficient navy for all practical needs. He said that he would add from six to nine more battle ships, each of 10,000 tons. These would cost \$5,000,000 each. This is as cheap as they can be built in England.

He would duplicate the *New York*, which would cost \$3,500,000. He would add from four to six harbor defence vessels, costing each \$2,500,000, and twelve torpedo boats, each costing \$125,000.

This would make a navy superior to that of any nation, not excepting England, in point of availability and practical qualities. He added: "We have to-day already completed and authorized forty-one war ships. These are all well vessels of the modern class and will be well armed. Twenty-three ships in all are now being built, and are to be turned out within the next two years.

KOREA.

(FROM OUR CORRESPONDENT.)

Seul, 28th February.

There is nothing of great note to mention except that Mr. Gresham, formerly U.S. Consul General in Yokohama, has now been formally installed as another foreign adviser to Korea. Perhaps it may be due to his taking the matter in hand that Major Lee got his claims against the Korean Government settled. As I related already in my last letter, the case Lee v. Schönlücke, (for alleged libel)—which was to be brought for the Supreme Court in Leipzig, has been withdrawn from the local German Consular court, owing to Lee's impending departure for the United States. I understand the gallant Major is a relative of General Lee, of Confederate fame. Another foreign employer has also been discharged, the French architect, Mons. Salabille, who I hear is going to Tongkin. Miscellaneous persons of a peculiar description will persist from time to time, in launching wild rumours about impending troubles in this unoffending country for purposes of their own; but the country has never been quieter, than at this moment.

I understand there is a fair prospect of the Customs collecting a goodly revenue for this quarter.

Business is improving and is being put upon a sound and reasonable basis.

From Chempoo I learn that a French gunboat is expected there, probably the *Asie*; most likely she will take away M. Collin de Plancy, who is about to leave Korea on a well-earned leave of absence and holiday.

It is also reported from Chempoo that the recently established firm of Messrs. F. H. Morel & Co. has made a remarkably successful start (a marvel, that the most sanguine people would not have dreamt of half a dozen years ago) as general commission and forwarding agents, bill collectors, brokers, auctioneers, stock-exchange, a fact on which this new venture deservedly must be congratulated; and as stockkeepers in Korea it is to be hoped for their own sake that they may keep a wonderful stock of patience in store.

The head of the firm, Mr. F. H. Morel, has an intimate knowledge of the country and people, which, combined with his well known energy, are sure to push the new enterprise forward most favourably.—*Shanghai Mercury*.

NANKING.

(FROM OUR OWN CORRESPONDENT.)

27th March, 1891.

During the past two or three days some evil-minded persons have been sowing the city with anti-foreign tracts of a most seditious character. They are directed "chiefly" against Christians and are directed both Catholic and Protestant and appeal to the people to rise in defence of the doctrine of the sages, but recommend measures which the sages could hardly be expected to

approve, implying if not urging the forcible expulsion of the obnoxious foreigners from the country. The language is of course slanderous and blasphemous, as has been reported of such productions elsewhere. They repeat all the vile stories that have been told for years as to the character and practices of missionaries. The tracts indeed bear the imprint of some Hunan secret society, and are perhaps the same as were circulated in that province last year.

The writer has seen sixteen different kinds and there may be others. Several of these pretend to be issued in the name of the Emperor, one having in bold characters at the top the inscription *Sing Yi*, supported by dragons; another is issued in the name of the Empress Dowager, also of course a forgery. One in pamphlet form professes to be a petition to the Peking government by eight Hunan officials of Hunan to expel the hated heretics from the land. That state and blasphemous pun of the "Heavenly Hog" is paraded on all of them, and one denounces the man who may hinder the burning of the church as worthy to have his own house burned, his lands confiscated and himself destroyed.

The attention of the Kiang-ling *Hsin* has been called to the matter, but they will probably be no need for any very severe measures here, as the tracts do not seem to have excited much attention, and the conduct of the people in their treatment of foreigners is no worse than for months past, which is to say that the people in the main are very well disposed. An act of vandalism was, however, committed a few days ago at the foreign cemetery here. The gate was broken down and one of the graves disturbed. The perpetrators of this outrage are supposed to be some soldiers engaged in repairing the city wall near by. As a coincidence it may be mentioned that these men also are from Hunan.

It is possible that copies of the tracts will be sent to the American Minister at Peking with the request that the attention of the government be called to the existence of this society in Hunan and the character and extent of its operations.

A telegram received at the Foreign Office here intimates that the Czarévitch will visit Nanking on his trip up the Yangtze. This may discredit the on-going rumour in repeating the *Chinese Times* that His Highness is unwilling to accept a provincial reception, but the information comes at any rate directly from the office for Foreign Affairs.—*N. C. Daily News*.

On account of the floods in Shantung last year, which not only flooded all the mines, but also destroyed all the salt, his Excellency Chang Yao has applied to the Salt Taxation Board for a loan of large quantity of salt. This application has been laid before the Salt Commissioner, and he is unwilling to make such a loan, because, as he alleges, before the flood the salt people managed to send across the borders about 1,800 piculs monthly, and now they are able to sell about 12,000 piculs, at an advance of 200 per cent. in price. Still he cannot very well refuse Chang Yao; however, the question is to stand over till Sheng Tsao of Chefoo returns to Chai Nan Foo, for which place he leaves to-day.

Since Saturday a strong northerly wind has been blowing, and on that account there is hardly any water on the Taku Bar. Yesterday there was 9 feet and to-day there is 6 inches less at high water. It is reported that Mr. G. Dering is seriously considering and preparing plans to deepen the channel across the Bar, and that he will shortly lay them before the Governor, as he did in 1888, when a depth of 16 feet was to be made; now it is to be deepened to 12 feet at least. In 1888 the Viceroy Li objected that it could not be deepened so much, or Taku would have been more strongly fortified.

From Kai-ping I learn that the Railway Company are marking out the line to Shan-kai-kwan. This really means that Herr Krupp has again come forward, and through his two railway engineers, who have been here since last year, has arranged to supply the money, &c., required, as he did for the Kai-ping line in 1888. In the former line the collectors at Kai-ping were used as a lever to secure the sanction for the construction of the railroad; now the argument is that in order to make the Kai-ping line a paying concern it is absolutely necessary to extend it to Shan-hai-kwan, by which also the consumption of coal would be largely increased. The alternative line from Tientsin to Peking would, no doubt, have been a more promising line commercially considered, but that seems impossible for the moment, and the railway people will only be too glad to accept the other line to Shan-hai-kwan, if they can procure the agent of the Peking Authorities, which is still very doubtful. The length of the extension is somewhere about 300 li.—*Mercury*.

It not only gives flesh and strength by virtue of its own nutritious properties, but creates an appetite for food that builds up the wasted body. It is pleasant to the taste and can be borne by the most sensitive stomach."—E. A. ROWLEY, M.D., Butter-Knives, Darlington. Any Chemist can supply it.—A. S. Watson & Co.
